

Hackers Enigma: HE

Hackers Enigma is the ethical hacking blog. The author of Hackers Enigma calls it as HE.

The blogs posted on Hackers Enigma are small but damn useful for net users. They include good informative blogs such as, "How to crack bios password" or "Registry hacks to speed up your computer" or "Newly released iPod shuffle" or "comparison of some latest processors" etc.

The download section of HE is filled with different kinds of products such as many Antivirus Softwares, browsers, messengers etc. Most important part in download section is the drivers of Compaq, HCL, Dell etc. which are not easily available. Also, there is a video regarding laptops in coming soon list of HE.
